EXPERIENCE

Bluestock Fintech *June 2025 – Present*
Software Development Intern

- Collaborating with a team on the IPO project, focusing on building scalable full-stack solutions for streamlined IPO processes.
- Implemented backend services and integrated frontend components using React and Node.js within the fintech ecosystem.

PROJECTS

Hrushi AI – Chat Assistant *May 2025 – June 2025*
Full Stack AI-Powered Web Assistant
Technologies: React, Express, Node.js, Firebase, Cookies

- Designed and developed an intelligent chat assistant using the MERN stack, offering real-time user interaction and dynamic responses.
- Integrated **Google's Gemini API** to provide AI-driven answers and contextual understanding across conversation threads.
- Implemented user authentication via Firebase, maintained session-based chat history, and deployed frontend/backend on Vercel and Render.

AI Resume Builder *Jan 2025 – Feb 2025*
AI-Powered Resume Generator
Technologies: React, Express, Node.js, MongoDB, Firebase

- Built a complete resume builder web app using the **MERN stack**, enabling users to generate smart, structured resumes.
- Integrated AI-based suggestions, template selection, real-time preview, and downloadable resume generation features.
- Emphasized clean UI/UX with modular React components and secure backend using Node.js and Express.

Reflect – Journal App *June 2025 – Present*
Full Stack Journal Web App
Technologies: React, Node.js, Express, MongoDB, Firebase

- Currently developing a personal journaling platform using the MERN stack to help users reflect on and track daily thoughts.
- Features include secure user authentication, sentiment tagging, mood analysis, and data storage on MongoDB Atlas.

CERTIFICATIONS

- Microsoft Azure AI Fundamentals
- Python Programming – Infosys Springboard
- Java – Codeforces Platform
- Cryptography – Online Certification
- HTML CSS – Infosys Springboard
- Web Development – Great Learning
- CCNA: Enterprise Networking, Automation Security – Cisco

Education

ANURAG UNIVERSITY

Bachelor of Computer Science
Expected 2025 | Hyderabad, India
CGPA: 8.99
Relevant Coursework: Programming, Data Structures, Web Development, DBMS

SRRS GOVT POLYTECHNIC

Polytechnic Diploma in CSE
CGPA: 8.67

ZPHS NAMAPOOR

High School
CGPA: 10

SKILLS

PROGRAMMING

Java • JavaScript • Python • HTML/CSS

FRAMEWORKS

React • Node.js • Express • Spring Boot • MUI

DATABASE & CLOUD

MySQL • MongoDB • Firebase

OTHER

Git • REST APIs • Vercel • Render
